
THANK YOU

Personalized Thank You

Thanking those who complete and return commitment forms is necessary and very important.

The thank you process should be formal and personalized either by mail or by phone.

If by mail the letter should be on parish letterhead and signed, preferably by the pastor. Some parishes use postcards in place of a letter for thank you cards.

If the thank you process is handled by phone, those making the calls should be instructed what to say so that a uniform message is communicated.
